

SEED OF HOPE

COMMUNITY DEVELOPMENT

We are an established local NPO in operation in the wider Amanzimtoti area since 2003, serving over **1000 community members** each month.

Our programs focus on **socio-economic development, health, education, skills training, employment preparation and entrepreneurship**. We offer our services onsite at our offices, in local schools and in homes throughout the community.

Through all we do, we are building hope by strengthening three core areas - what we call the **Pillars of a Thriving Community**:

HEALTHY, STABLE
FAMILIES

SUSTAINABLE
LIVELIHOODS
